DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 11, 16, and 19-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Yokocho et al.

The patent by Yokocho et al. (6,123,216) shows a fuel reservoir (41) intended for the fuel, and an additive reservoir (42) formed in a concave recess of a wall of the fuel reservoir.

The chamber is closed by a lid made of a same material as that of the fuel reservoir.

Allowable Subject Matter

Claims 12-15, 17, and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
